

# INJECTOR - OUT2 (SiC)

10203.00.0.01

**Key facts:**

- Less trend to nozzle clogging
- Compatible with all versions of the Impact Gun
- Combination with various accessories possible
- Silicon carbide (SiC) nozzle

The nozzle Injector - OUT2 is a shortened nozzle with a higher expansion rate. Operation in conjunction with air or water cooling is recommended. This greatly reduces wear and tear and the risk of nozzle clogging.

The nozzle Injector - OUT2 is compatible with all versions of the Impact Gun. It can also be used in combination with various accessories.

The SiC - nozzle, with low surface roughness on the inner contour, is extremely resistant to clogging and is suitable for nickel-based superalloys such as Inconel.

Expansion ratio: 10.0  
Total length: 109.7 mm
