

INJECTOR - IN2 (WC)

10207.00.0.02

Key facts:

- Minimum coating diameter $\varnothing 107$ mm
- High particle velocity
- Tungsten carbide (WC) nozzle

The nozzle Injector - IN2 is designed for the ID Coating Device and is suitable for bores with a minimum diameter of $\varnothing 107$ mm. Due to the length of the nozzle, a high particle velocity is reached.

Operation is only possible in conjunction with water cooling. This greatly reduces wear and tear and the risk of nozzle clogging.

The WC - nozzle has a high wear resistance and is suitable for very hard materials.

Expansion ratio: 12.5
Total length: 78.0 mm
