

CONVEYOR DISC (Ø3 x 120)

10002.03.0.08

Key facts:

- Quick and easy replacement
- Flexible operating range
- 120 holes
- Volume: 2.968 cm³

The Conveyor Disc 10002.03.0.08 is a standard disc for all versions of the Impact Powder Feeders. This Conveyor Disc is recommended for a variety of powders, but especially for powders with poor flowability. Replacing the Conveyor Disc is quick and easy.

In order to influence the powder feed rate, the following factors must be considered:

- Volume of Conveyor Disc
(number and design of holes)
- Rotating speed of the Conveyor Disc
- Flowability and apparent density of the powder
