

IMPACT PF-STATION EvoCSII

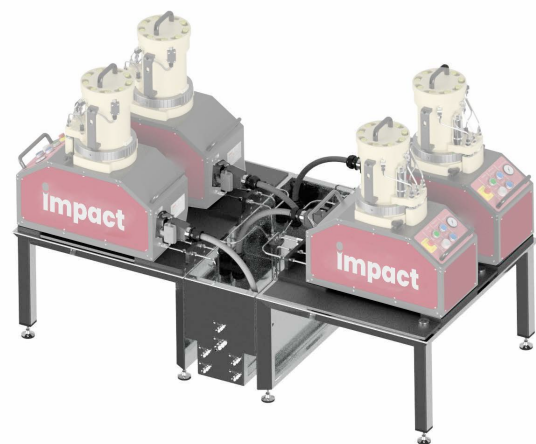

10011.00.0.00

Key facts:

- Operation of up to four powder feeders simultaneously
- Ergonomic working height
- Variable placement of the connections
- Safe storage of the powder feeder
- Reduced noise emissions thanks to a central ventilation line

The Impact PF-Station EvoCSII offers space for up to four Impact Powder Feeder EvoCSII. Depending on your needs, you can choose between two and four parking spaces. The two parking spaces can easily be expanded to four parking spaces. An X-connector enables four Impact Powder Feeder EvoCSII to be used at the same time. If an Impact Powder Feeder EvoCSII has to be serviced, the emergency stop circuit can be closed with the blind plate supplied. Therefore it is possible, depending on the existing configuration, to continue the process with an Impact Powder Feeder EvoCSII less. Each parking space is anchored in the system with a permanently assigned number in order to avoid mix-ups.

Equipping the Impact PF-Station EvoCSII is easy and safe thanks to the guidance of the legs. The Impact Powder Feeder EvoCSII is placed in the elongated hole guides and can then easily slide towards the pipe connections. The working posture is much more ergonomic due to the height of the Impact PF-Station EvoCSII, since the Impact Powder Feeder EvoCSII is accessible in an upright position. In order to reduce noise emissions, the ventilation can simply be routed into the soundproofed spray booth.

Technical data

Compatibility	Impact Spray System EvoCSII	
Variants	1 - 2 PF	 3 - 4 PF
Weight	54 kg	 80 kg
Length	1032 mm 1694 mm	
Width	893 mm	
Height	510 mm
