

NOZZLE - IN5 (WC)

10211.00.0.01

Key facts:

- Minimum coating diameter Ø84 mm
- High coating efficiency

The Nozzle - IN5 is designed for the ID Coating Device and is suitable for bores with a minimum diameter of Ø84 mm. Due to its compact length and high expansion ratio, it provides excellent coating efficiency in confined geometries.

The WC nozzle has a high wear resistance and is suitable for very hard materials. It has a low surface roughness on the inner contour. The smallest cross-section corresponds to the OUT1 and OUT2 standard nozzles.

Technical data

Expansion ratio	12.4
Total length	55 mm
Material	Tungsten carbide (WC)
